Note: List is subject to change.

*An infertility treatment center that has met Cigna's criteria may be awarded the COE designation based on two different age groups (37 years and younger or 38 years and older).

This document provides a listing of infertility clinics that have received the Cigna Center of Excellence designation from January 1, 2017 through December 31, 2017. To verify if a facility is in your plan's network, view your health plan directory on myCigna or call the number on the back of your Cigna ID card. Center of Excellence ratings reflect a partial assessment of quality and cost-efficiency and should not be the sole basis for decision-making (as such measures have a risk of error). Quality designations are not a guarantee of the quality of care that will be provided to individual patients. You should consider all relevant factors and consult with your physician when selecting a health care facility. Participating facilities are independent contractors solely responsible for the treatment provided to their patients. They are not agents of Cigna. The listing of a facility does not guarantee that the services rendered by that facility are covered under your specific medical plan. See your plan documents for information about the services covered under your plan benefits.

All Cigna products and services are provided exclusively by or through operating subsidiaries of Cigna Corporation, including Cigna Health and Life Insurance Company, Connecticut General Life Insurance Company, Cigna Behavioral Health, Inc., and HMO or service company subsidiaries of Cigna Health Corporation. The Cigna name, logo, and other Cigna marks are owned by Cigna Intellectual Property, Inc.
