

## Associate Discount

The associate discount allows you to save on the same great merchandise that Macy's and Bloomingdale's customers buy.

A 20% associate discount is available on most merchandise purchased at Macy's, Bloomingdale's, Bloomingdale's The Outlet Store, Macy's Backstage, *macys.com* and *bloomingdales.com*.

A 10% associate discount applies to some merchandise, such as small electrics and electronics purchases. Additional discounts are also available throughout the year during Extra Associate Discount events.

To receive an associate discount, you must be approved for either a Macy's or Bloomingdale's credit or pre-paid account. Any discount on purchases made with your card will be applied and shown on your monthly statement.

You may add up to 4 people as an authorized buyer on your account in order to use your discount. However, outside of certain family members, such as your spouse and dependent children (a child under the age of 19 or under the age of 24 if a full-time student), you will be subject to taxation when those authorized buyers use your discount.

You can find the full associate discount policy in the eMAG on My IN-SITE. To review frequently asked questions and a listing of extra discount event dates, visit the "Associate Discount" page under Enjoy Life in the My Benefits section of My IN-SITE.
